

The Role of the Supervisor in Diabetes Management – Webinars

3 external CPD points

Introduction

This 2.5-hour webinar is aimed at **ALL** supervisors including but not limited to GP trainers, Nurses, Pharmacists, PAs and Paramedics; **working in North East London**.

The focus of the programme is supervising health professionals responsible for Diabetes in a multidisciplinary environment. This webinar introduces the supervisor's role and explains the GMC/CQC regulatory requirements. The theories will build on the importance of ensuring that the learner develops and is motivated to achieve outcomes. The workshop will also focus on the competency assessment framework along with a case-based study for review and discussion.
